

IdeaFry.com - The Next Generation Free Blogging Platform

Mumbai, India – June 30, 2008 – IdeaFry (<http://ideafry.com/>) has led the way in blogosphere with the release of its flagship blogging platform, providing bloggers the opportunity to harness their independent and original content. IdeaFry.com is a free blog service for communication, self-expression, Idea and freedom of speech.

We believe IdeaFry.com increases the availability of information, encourages healthy debate, and makes possible new connections between people. IdeaFry is the "all-in-one" blogging tool. It creates blogs; posts content and pings search engines.

With the added features users can now:

- The ability to create blogs on subdomains makes IdeaFry a class of its own <YourName>. IdeaFry.com.
- Choose from 100 stunning themes.
- Import from Blogger, TypePad, LiveJournal, and More.
- Make money with Google AdSense.

Founded in June' 2008, IdeaFry (<http://ideafry.com/>) is the leading free blogging platform for managing and powering content online. The company enables better blogging on the blogosphere by providing users the ability to centralize, track and share content anywhere online. Through integration with major media companies and publishing platforms, ideafry increases the visibility and exposure of blogs to a greater user base of active bloggers, readers and the public. IdeaFry is headquartered in Mumbai, India.
